SUMMARY

Passionate UI Developer with 2 years of hands-on experience specializing in MERN, ReactJS, JavaScript, TypeScript, and UI development. Adept at building scalable, high-performance applications with a focus on clean, maintainable code and user-centric designs. Skilled in Agile methodologies, unit testing, and microservices-based architectures, with a proven ability to collaborate across cross-functional teams.

SKILLS

ReactJS   NodeJS   JavaScript   TypeScript   Redux   MongoDB   ExpressJS   HTML5   CSS   GIT

EXPERIENCE

Software Development Engineer

Clover Bay Technologies Pvt Ltd

📍 Banglore, India

- Developed and optimized ReactJS applications for Lycamobile, enhancing user experience and performance.
- Utilized React Hooks, Redux Toolkit, and React-Router to manage state and streamline navigation.
- Implemented code splitting and lazy loading, reducing initial load time by 50%.Developed unit tests (Jest, React Testing Library), achieving 90% test coverage, reducing bugs by 20%.
- Worked in an Agile environment, built responsive and reusable UI components, ensuring adaptability across devices.
- Applied structured problem-solving techniques to resolve complex UI issues and optimize performance. Collaborated with cross-functional teams, demonstrating strong interpersonal and communication skills to align business goals with development efforts.

Software Engineer

Reckonsys

📍 Banglore, India

- Contributed to Chatbot-AI and Pruv projects, enhancing frontend performance.
- Fixed 100+ critical bugs, ensuring on-time project delivery.
- Refactored components, reducing code lines by 30%, optimizing performance.

Software Engineer

Replicon

📍 Banglore, India

- Developed features for T&A and Polaris projects, focusing on performance enhancements.
- Collaborated with designers and backend developers, integrating REST APIs.
- Conducted debugging, unit testing, and automation testing, ensuring seamless releases.

PERSONAL PROJECTS

TaskNest (MERN App)

🔗 https://node-frontend-red.vercel.app

Tech stack : MERN stack, Tailwind CSS,

- User authentication (login/register) with JWT
- To-Do CRUD operations (Create, Read, Update, Delete)
- Secure API endpoints with token validation
- MongoDB database integration, Error handling middleware

Kanban Board application

🔗 https://kanban-board-2000.vercel.app

Tech stack : React, TypeScript, Tailwind CSS,

- Developed a drag-and-drop Kanban Board with task management features.
- Implemented performance optimizations using React's memo & useCallback.

Project Admin Dashboard

🔗 https://admin-dashboard-ten-lilac-17.vercel.app

Tech stack : React, JavaScript, Material-UI

- Designed and developed a fully functional admin dashboard with CRUD operations, search, and pagination.
- Utilized local storage for data persistence and Material-UI for UI consistency.
